

TO SEE GREATEST
CRUISER AFLOAT

Prince of Wales Will be Conveyed
to Canada by the Indomitable
—The Mystery Ship.

London, June 22.—The great and formidable British naval armoured cruiser Indomitable, will convey the Prince of Wales and his suite to Canada for the approaching celebration of the centenary of the British North American Confederation. The Royal Canadians and perhaps their wives will accompany the prince to the north, with the opportunity of seeing the newest floating proof that Great Britain is determined to preserve the peace. With the prince and his other powers will try, unquestionably, to build a career in a naval-diplomatic career on the Indomitable. Well knowing that the details of the construction of this ship are of the most profoundly secret yet very important detail of this huge cruiser's construction. So she has come to be known as the "Indomitable" and the "Invincible" sister ships, the Invincible and the

this the admiralty engineers have kept profoundly secret every important detail of the huge cruiser's construction. So she has come to be known as the "mystery ship." As far as she and her sister ships, the Invincible and the In-

This great war vessel is the fastest, longest, largest and most heavily armored cruiser afloat. She displaces 17,200 tons and is 530 feet long. She is to all cruisers save her sisters what the Dreadnought is to all battleships. The power of her artillery is immense. She carries eight huge 12-inch guns, each 45 feet long and capable of firing an 800-pound shell twice a minute. The guns are mounted on four turrets and the turrets are so arranged that six or eight big guns can fire on either broadside and six of them ahead or astern. Beside her eight big guns the indomitable carries sixteen 4-inch guns for the purpose of

meeting torpedo boat attacks, eight of these are mounted. Two on top of each

sture and the other eight on the upper works. This superb fighting machine has a maximum speed of 20 knots, and is capable of developing 41,000 horse power, the most powerful ever put into a British warship. Her four screws have carried her at a rate under twenty-five knots.

In Front of Christians 53. Battleships and 28,000 Men.

Christians, Norway, June 21.—The Channel and North Sea fleets of the British Navy are lined up in front of Christians, Norway, in the largest display of war vessels ever witnessed in Christiania. In all there were 53 British ships, manned by 28,000 men. The fleet was headed by the battle-ship *Queen Elizabeth*, the largest British battleship, and the *Admiral*, the oldest British battleship. The adjacent city is dominated by the great fort of Akershus, the surrounding district, making the surroundings lively, as if a great festival were being celebrated. DISTRICT NEWS

VEGRIEVILLE.

Bulletin News Service.
Donald Munroe, a local exporter from Montreal, was here to seek information as to the prospects of export cattle from this city. He also called on the people at Vegg. He was accompanied by Hon. W. F. Fisher, minister of agriculture, and by F. S. Stevens, of Clover Bar. While on their way from the people to Vegrieville, he had the opportunity to act the good Samaritan. A Mr. Anglin, who had been with him for some time, had been bleeding profusely from a bad gash. Mr. Fisher happened to have some medicine in his grip. He dressed the wound and applied the medicine and the unfortunate man is getting along nicely.

A series of baseball games has been played here by local teams. The East and West Enders had a rap at it, the game resulting in a victory for the East Enders by a score of 6 to 5. The return match was played on Wednesday at the East Enders. The West Enders wiped out their defeat by a score of 10 to 8. Last night the Vegg Men, with Pittman and McClelland assisting, and on whom the Single Men had pinned their faith and hope, defeated the Married Men by the narrow margin of 10 to 8. Some time later, the no season baseball team in Vegrieville for the balance of the season. W. A. McCarren, of Fort Saskatchewan, and J. McLaughlin, of Agria, and A. L. McLaughlin, of Agria, were visitors here this week.

Work has commenced on the putting in of the posts for the electric light in town. The work will be finished in a few days. The plant in question is to be located on the corner of the Queen's livery, has arrived from Scotland.

Samuel Rogers, of Lloydminster, is here buying milk cows and horses. He also has a lot of cattle. The cows have been kept here on account of the excessive heat in the area. Horses are scarce and high in price. He has left for the Galician settlement.

Mrs. H. Lynn, of Strathcona, who has been visiting her son, Percy, returned home this week.

The C. M. R. boys returned from camp last night, "tired and browned off." They report a good time.

A. Bell, who lives south of the town, had the misfortune to lose a valuable horse out by barbe wire.

A very pretty wedding took place at the home of Mrs. Geo. W. Smith. St. Paul des Metis, on Wednesday evening, June 17th, when his daughter, Brenda H. Dingwall, was married to Martin R. Wood, of Raymond, Minnesota.

Heber Smith, a brother of the bride, assisted the groom, while Miss Lucy Colwell acted as best woman. Rev. J. A. Salter, of Saddle Lake, officiated. The church was handsomely decorated with flowers. Only relatives of the bride and a few intimate friends were present. The groom is well known in Vegrieville, where he lived and owned a store for many of the past five years. Mr. and Mrs. Wood left on the Saturday evening train for their home in Raymond after visiting Winnipeg, Chicago, Minneapolis and other cities.

Last Saturday, while Heber Smith and his brother, C. D. Smith, were growing on the farm at Raymond, they had the misfortune to have a valuable horse drowned. It was a fine horse, and they managed to save the old horse.

A mare belonging to Moses Duquette thought her calf was across the river, plunged into the water and was swept under the ferry and in spite of the efforts put forth to save her was drowned.

BIG ENTERPRISE.
Campbell Brothers' consolidated store are advertised to exhibit in Edmonton on Wednesday, June 23, and on that day it is hoped that every man, woman and child will be present to take a holiday as there will be plenty of entertainment from early morning till late at night for old and young alike.

All previous offers of these able circus managers have surpassed this year and they are presenting the largest, cleanest and most gorgeous entertainment that has ever been given herebefore under canvas.

No falter has been too hard, no excitement too great, to gather together a brilliant array of everything that goes toward the making of a first-class circus. 200 head of fine high-spirited horses, over 300 human beings, many of them from foreign nations over the seas, all united to perfection in their own special art, hand-picked and carefully selected, jugglers and others too numerous to mention, besides the large and elaborate menagerie which has been secured at great expense and consists of a herd of trained elephants, a team of lions, a bear and in their native form, tigers, leopards, and a variety of wild animals from the land of Tibet, and others as equally interesting. The brilliant street parade will be given promptly at 10 a.m.

The regulation of the Grouse Plains is due to the development of today. It does not rest upon the past, or the story of the future, but upon the present. There are times that have been known to the past, but the future is not so sure. It will be as long as long.

THE LEADERS.

When Mr. Foster held his factions opposition in the House of Commons, to the government assistance to the banks in the movement of the wheat crop last fall, Mr. Borden called a halt to the operations of the ex-Finance Minister, and allowed public business to proceed. If instead of making spectacular efforts to assist his leadership, Mr. Borden would keep his hand upon the reins of his party all the time, the Opposition would gain something in moderation and might also rise some in public opinion. The present leader, however, does not seem to have much control over his party, and is evidently afraid to cross roads too often with the member for North Toronto.

When the insurance investigation took place, and Mr. Foster's methods of transacting business were exposed, a certain section of the Conservative party and press decided that the public services of his first lieutenant in the Commons, declaring that as long as men like Mr. Foster dominated the party it could not expect to win a very large share of public confidence. Mr. Borden's reply was to give Mr. Foster the maximum amount of publicity in the ranks of the party and those who were clamoring for his retirement are now as loudly applauding his retention.

When Mr. Borden made his tour of Western Canada last fall, the greatest regret among the leaders of Conservatism was the absence of Mr. Foster. Someone who could stir up the dry bones was badly needed. It became more apparent at every meeting that Mr. Borden not only lacked the ability to excite or inspire his supporters, but that he also lacked large ideas. His public utterances were of the most commonplace character, and his explanations of his Halifax plan were about as nebulous as the platform itself. Few leaders of a party ever had a more discouraging effect on the ranks in moving him better depressing to Mr. Borden, so much so, in fact, that he returned to the duties of the session with so little spirit that he has virtually allowed Mr. Foster to lead the House almost ever since.

The Conservative party thus find itself with so weak a leader that it is forced to turn to the member for North Toronto for relief, and to accept the virtual leadership of the most when a section of the party and press are trying, a short time ago, to drive out of public life. This must be a rather humiliating position for them to be in, but with a leader like Mr. Foster, and such leaders as Messrs. Foster, Bennett, Spooner and Hargart, it is from dire necessity they turn to the organizer of the next of traders of gold and accept him again as their guiding star. Mr. Foster is to-day the whole militant force of the Opposition at Ottawa, with R. L. Borden as an observer, except in a very occasional instance such as the government aid to the banks in moving the farmers' crop, when Mr. Borden asserts the fact that he is leader, at least in name, but his political existence must be entirely forgotten.

A STRONG GOVERNMENT.

The recent session of the Saskatchewan Legislature has added very materially to the strength of the Scott Government. They had a rather heavy programme for one session, but so well prepared were most of their important measures that they aroused little or no controversy. Their redistribution bill was prepared and dealt with in orderlies there is no doubt. Estimates of both sides of the Legislature prepared the boundaries and arranged them to the satisfaction of both Government and Opposition. This method bears a very favorable contrast to that of the good old-fashioned Tory gerrymandering of the Whisky Government in Ontario, where they took from the smaller constituencies and added to the greater, their highest ambition being to steal seats in the Legislature.

The Saskatchewan Legislature passed a law to amend the provisions for the election of a uniform plan upon which these municipalities should be organized. Their election legislation could forth come from even Mr. Hamilton. They also passed a public health act, which will complete the chain of public provisions operating through the telephone lines.

The only legislation that was opposed in any measure was the first text book bill, and to this Mr. Hamilton offered some Opposition. No one of public importance has been connected with this legislation than some of the Tory papers, began to talk about the thing with which they are most concerned, "In 2¢ per year." The leader of the Saskatchewan Opposition found himself so compromised by his friends that he took the precaution, on the floor of the House, to disavow having ever made any statement to warrant any such interpretation as the Tory papers were placing upon his speech. Well might he not be saved from such friends.

The result of the legislation just passed is to show that the Saskatchewan Government is composed of strong, capable men who are endeavoring to give our neighboring province the very best administration possible. During the whole session, the debating strength of the Government showed the best advantage, while that of the Opposition was scarcely that of the scattered Opposition in the Alberta Legislature. The Scott Government has gained in strength and in public confidence every year since its election, and more in the last session than in any preceding one.

NOTES AND COMMENT.

Fine weather for the Fair is our first forecast.

Edmonton Exhibition gives every promise of being an excellent forerunner of the Dominion Fair.

It is almost pathetic to see Conservative organs apologizing for taking their "aligned" facts from the columns of the "Journal."

What serious proposition for the better government of Canada has any member of the Ottawa Opposition made this session?

There is to be no Tupper in the House of Commons this session. Even that even the optimism of a Tupper cannot see any signs of victory.

The Government is now accused of leaving the House of Commons to sleep too long. They will probably be charged with making Borden leader of the Opposition before the session closes.

Tory campaigners in discussing the Saskatchewan Valley land question, always fail to mention the settlement duties imposed upon the company by the contract. The whole truth is what they fail to tell.

One day the Conservative journals are proclaiming from the house-tops that Messrs. Wintour, Roblin and MeBrick are going to attend public meetings on Mr. Borden's behalf, and the next day they are whining because a Liberal provincial premier happens to address a public gathering.

Hon. Geo. E. Foster has beaten the record of the young Tory paper that denounced him when the Insurance Commission exposed his Trust Company deals. Mr. Foster has easily proved that the Tories are not so afraid to make these dinky little speeches as they would have us to believe, with the only debate that has taken place in the House of Commons.

THE MAJORITY MUST RULE.

Long before the majority rule is the essence of responsible government. No system of popular government has yet been found possible save on the principle that the majority of the people should direct the course of public affairs. Nor is it conceivable that a system of responsible government could exist, founded on any other basis. The people of a country are rarely or never unanimous in support of a line of policy. Commonly, if not always, there is a part or portion of the people who are one way and another party who favor a different mode of procedure. One or other of these differing parties must win. Under responsible government the larger party decided which course the national affairs shall pursue. Under irresponsible government each party determines the course—and whether the smaller party comprises a king and a circle of favorites, or a body of popularly-selected representatives. As long as they are the smaller party and so long as they dominate the course of public affairs, the country has irresponsible government.

Parliament is the agent of the people. The majority of the members hold the views of the majority of the people, and their business is to incorporate these views into the conduct of the public business. If they do not, they are not faithful to the trust reposed in them. If they are guilty of this, they are the will of the majority is frustrated and responsible government to that extent is destroyed. It is no delusion that those who prevent a particular measure from passing are not the will of the people are representing the views of the popular majority. That is true, but it is not their duty to prevent the majority from doing the purpose of the majority, nor to try to replace the policy of the majority with their own. The Canadian people are today faced with the necessity of researching and deciding the principle of majority rule if they wish to maintain their system of responsible government. Parliament has been in session since November last. The order paper has been filled continuously with business of public importance, and it is of surprising importance. Yet that business has not been touched. Much of it has not been touched. Much of it has been merely postponed, week after week, month after month. The business has been postponed by protracted discussion, by subjects of minor importance and by the government's own business. The government has been persistently and consistently prevented from doing so by one or more of every conceivable cause, on which a speech could be strung together. The irresistible conclusion is that for some reason, be that what it may, the majority have failed to carry out the will of the majority of the people being carried into effect.

How Few Think Justly of the Thinking Few

How Many Never Think at all, Who Think They Do?

If your life has been full of ups and downs, if you have failed in your undertakings, if life has meant nothing but a continual grind, with no interest, no progress, no uplift, if everything seems to go wrong, then it is time for you to know the reason why and remedy. All of us are more or less governed by our own view point and our own narrow little circle of ideas, and consequently we make the mistakes that do not come within our range and with that some of life's greatest possibilities. Look about you and see how many really capable men are lost to the light of knowledge, with nothing better to view than a continual grind, miserable-like waiting for something to turn up. Mr. St. Albans is particularly fitted to help just such men. His experience with men and women is an extensive one and his methods are above-board and sincere. He makes no claims to supernatural powers, or any of the jargons of so-called fortune-telling, his mode of procedure is based on a scientific principle and the result is certain. In giving readings it is not his aim to make you with extraordinary tales of impossible success, but to give you truthful and accurate advice, no matter whether it pleases or displeases you. The truth is the thing.

What MR. G. M. DAWSON,
Canada's Greatest Geol-
ogist, says about
the Morinville
Oil District

(Canadian Government Report for year 1898, Page 29-A.) "Tarry or gummy matter was first found in plying in the Northwest quarter of section 28, township 56, range 25, west of the fourth meridian. Several small excavations were then made and some of layers of hardened pitch, and pitch saturated sands were found."

"A large amount of sand saturated with tar was lying beside this pit when the unstratified material with pebbles was found to extend down to a depth of eight feet and through it was running many veins of hardened pitch. Below this a coarse moderately even grained and apparently horizontally bedded sand is reached. THIS SAND IS SATURATED WITH TAR."

Gas and Oil

We have shown that experts consider the indications for oil very excellent. Now, then, we all know that the American Canadian Oil Company is drilling on the adjoining property to ours, that they have struck gas and expect to strike oil any day, that the Vancouver company are actually setting up their rig, that the Canadian Northern Railway have their outfit here and are going to start work this season.

Would all these outfits be working if the indications for oil were not good? Take all the above facts and consider.

Elk Park Oil Company's Stock is now selling at five cents per share. Of course it is a speculation at present, and a good buy at that price, but any day the American-Canadian Oil Co., the Vancouver Co., or the Canadian Northern Railway Co. may strike oil, then it is not a speculation but an investment. We court investigation.

AROUND THE CITY

BIG LAND COMPANY HERE.—Within a short time this company will have in this city the headquarters of a two million dollar bank company which is now in process of formation. For which further particulars will soon be given.

For some weeks past there have been rumors among local business men, especially regarding the Argentine Land Corporation, that this city, and a Bulletin representative today had a talk with a gentleman well known in London and Paris financial circles who has arrived in Edmonton to put the scheme into definite shape.

The gentleman in question, who declined that his name should not be mentioned at the present stage, has successfully piloted some big deals in London and in Argentina, notably the Argentine Land Corporation, which pays a regular 10 per cent dividend on its \$2,000,000 capital, and has a reserve of \$5,000,000.

For some time past he has been studying the land question in the West, with a view to interesting the local investor in profitable and profitable investments.

In the present scheme the only information that could be given is that the capital will be \$2,000,000, that several well known financiers have joined the board and that the deal itself will be in this city.

PERSONAL

One of the family went on Friday to Hull, where they will spend the summer vacation. It is in prospect that the trip for the year from the C.N.R. to the city power house.

THREE BASEBALL GAMES

Three Twilight League baseball games will be played in Edmonton this week during the fair provided the rain does not prevent, which should attract large crowds of fans on Wednesday, June 24th. The Liberal baseball team is scheduled to play Strathcona in Edmonton on June 24th, Carleton on June 25th, Westsaskatoon. A large number of the games in this league have been postponed on account of rain and it is hoped that the three games scheduled for this week in Edmonton may be played.

THE RING

DOUBLEDAY BOXING GYM

On Thursday evening the sporting world of Edmonton will be given an opportunity of witnessing a double header boxing contest in the Thistle Ring. This contest includes a 15-round bout between Jimmie Potts of Minneapolis and Lynn Truescott of Edmonton formerly of Australia and a 10-round contest between Jack McCune of Detroit and Jack Sullivan of Edmonton. The tickets for these bouts are now on sale at Pratt's Cigar Store and Edmonton sports should get busy and secure their seats as the city will probably be crowded on Thursday with visitors to the fair who will not fail to witness this double contest.

The four men who will take part in these bouts are working out in pairs at the Thistle ring. Potts and McCune gather between 2 and 3 every afternoon and Truescott and Sullivan leave Potts and Truescott, while both in the light weight class will meet at each weight on Thursday night and will probably tip the scales around 110. McCune and Sullivan are both in the heavyweight class.

The first bout will be started at 8:10 on Thursday evening and the second at 10 o'clock. The citizens' band will attendants.

AT THE RIFLE RANGE

The threatening aspect of the weather, detracted a number of marksmen from getting in the range. Several in the impression that there would be no Canadian Rifle League was to be shot, which only heavy rain could cancel or change. It was necessary to do the best possible with the talent available.

The rain of any consequence was at the beginning of the 300 yards; and the wind became steadily and changed in the second round of the 600 yards, but the light although dull was clear, evenly diffused and therefore free from refraction. A feature of the practice was the good shooting made by the younger members. Several of whom, with another season's practice should really make into the senior ranks.

The following are the scores, which, considering the absence of the "Blacks" and of two or three of the little conditioners, they are very fair considering the conditions. The top highest form the score for the match:

Wm. Pearson	300	500	570
Don. Reid	32	57	32
A. McLean	71	29	22
H. Greig	20	28	78
D. A. McIntyre	21	21	21
M. A. Osborne	21	21	21
E. F. Baker	27	27	27
W. S. West	29	22	78
H. Greig	20	28	78
J. W. Morris	20	25	45
H. Grinhal	23	18	13
E. P. Mavor	14	13	27

In spite of the absence of the Blakes, the association was a good one and a good team to the provincial matches, which which are to be held on the 14th, 15th and 16th of July.

The opening game for the Boys' football trophy will be played on the Cornsington Avenue ground. The Sturgeon district league has been organized and three teams have been entered, namely: Cornsington, Box Astor and Napanee. The trophy for which these teams will play, and will be valuable of the championship of the Sturgeon district has been presented by Mr. J. H. Boyle, the member for Sturgeon in the Alberta Legislature. The league schedule calls for home and home games. English rules will govern the contests. The kick off at Cornsington next Saturday will take place at 6 o'clock.

WOMEN FIGHT FIRE

Burke's Falls Visited By a Disastrous Fire—Damage \$150,000.

Burke's Falls, Ont., June 21.—The worst fire in the history of Burke's Falls occurred yesterday afternoon, when property to the value of \$150,000 went up in smoke. The insurance was about \$100,000. The fire started in the drying kiln at the Knight Bros. Company works but through the heroic work of the fire brigade under Chief Johns and assisted by the employees of the mill factory and sawmills, the machine shops and lumber yards were all saved. Unfortunately, while the kiln was burning, the wind, which was blowing a terrific gale, carried flaming logs over the hill and into the business part of the town, and in less than a quarter of an hour several buildings were in flames. The whole town was threatened with destruction and women as well as men set to work to fight the flames. The Gravenhurst and Huntsville fire brigades were sent for but did not arrive until the fire had been got under control.

Every business building on the east side of Ontario Street from Yonge street to 10th St. Salutation Army barracks was burned to the ground, including the Clifton hotel. They were all wooden structures which have for many years been a menace to the town. On the west side of Ontario street every building from Yonge street to Partridge block was destroyed, with the exception of three brick buildings, all these were also wooden structures.
